

CarloTokiwa's CT-DOS

Dream Operating System

User's Guide

CarloTokiwa's
CT-DOS

HOW TO USE

CarloTokiwa's CT-DOS

At first,type "dir" by the keyboard. Directories and files in current directory will be displayed in a list.

If you want to go to sub directory(be shown as <dir>), type the name of the directory followed by "cd".

If you want to run a program(be shown as EXE), just type the name of the program.

When you want to back to the parent directory,type "cd ..".
